

Softice

Excellent, non-dairy
ready-to-use soft ice mix

DANICA

DANICA Softice Mix has one of the most outstanding
flavours on the market

Excellent functionality

Ready to use liquid mix. Open and pour directly into the soft ice machine. DANICA Softice Mix has a slower meltdown than dairy soft ice due to vegetable fat. This prevents running ice on waffles.

Special advantages

- Great volume
- Great stability and shiny surface
- No thawing out problems
- Homogeneous high quality
- UTH product with long shelf life
- Delivered in three delicious varieties:
 - Vanilla
 - Chocolate
 - Strawberry

DANICA

Application

Ready to use liquid mix. Open and pour directly into the soft ice machine.

The product is ideal for traditional serving in waffles or cups, but also for decorating and filling desserts and cakes.

DANICA Softice is also suitable for hot and cold drinks (hot-chocolate, milkshake etc.).

Flexible packaging

DANICA Softice is available in 1 litre, 5 litre and 10 litre packs and has a long shelf life. It is pasteurized at ultra-high temperature (UHT) and packed in aseptic packaging.

Storage and shelf life

Storage: Unopened: Max 20°C at constant temperature.
Do not freeze.

Shelf life: Unopened 18 months under recommended storage.
Opened: Refrigerate 2-8°C and use within 2-3 days.
